# ABOUT FINDERS & LEADERSHIP

Finders is a real estate investment and asset management platform specializing in the identification, acquisition, development, and strategic repositioning of high-potential properties across Greece.

Founded in 2014, the firm operates at the intersection of local market intelligence and international investment standards, providing global investors with direct access to opportunities within one of Europe's most dynamic real estate markets.

With offices in Israel, Athens, and Crete, Finders has built a vertically integrated platform capable of sourcing, structuring, developing, and managing real estate investments from concept to exit.

Over the past decade, the company has:

- Managed five private equity investment funds
- Completed 211 real estate transactions
- Deployed more than €169.6 million in capital
- Built and managed 122 active assets
- Executed transactions totaling over 51,000 sqm of real estate
- Delivered a 104% realized ROI for investment partners

Finders' strategy focuses on unlocking hidden value in assets often overlooked by traditional investors. By identifying underutilized, mispriced, or strategically located properties, the firm transforms them into high-performing, institutional-grade real estate assets through redevelopment, repositioning, and active asset management.

A key advantage of Finders lies in its proprietary market access. Through deep relationships with local stakeholders, including banks, developers, municipalities, architects, engineers, and legal experts, the company gains early visibility into opportunities that rarely reach the open market.

This access, combined with disciplined investment underwriting and hands-on project execution, allows Finders to consistently deliver high-value opportunities for international investors, family offices, and strategic partners seeking exposure to the Greek real estate market.

Today, Finders serves as a trusted gateway for global capital entering Greece, offering a fully integrated investment platform that spans:

- Opportunity sourcing
- Investment structuring
- Development and repositioning
- Branding and market positioning
- Asset management
- Exit strategy and value realization
