ABOUT THE AREA

Rethymno is the third largest city in Crete.

A charming city with a winning combination of Venetian influences and Turkish influences. The narrow alleyways create an almost mystical, romantic atmosphere.

The city has various influences of the Occupying Nations, which have passed through the island throughout history. One of these nations is the Venetian, which expanded the city to what it is today, and set up several sites worth visiting: the fortress which is a testament to the experience of the Turks' defense against the past.

Rethymno's fortress complex has been poorly preserved since its glamorous days in the 16th century and can be visited and viewed from its walls to the sea, port and lighthouse. The beautiful Venetian harbor also serves as a great starting point for sightseeing in the picturesque and pleasant alleys of the old city. Outside the old city there is a nice little town market, trendy cafes and bustling commercial streets that will offer a little more than touristy souvenirs.

The main campus of the University of Crete is located in the city (the second campus is located in Heraklion) and about 9,000 students attend it every year. Thanks to the student life and the young and dynamic city population, the city's entertainment venues are active throughout the year - unlike other cities on the island where most of the activity is during the summer months. The students are a lever and have a positive economic impact on the entire area.
