[VIRTUAL TOUR](#)

The building is located in the heart of Athens, between Omonia Square and Karaiskaki Square.

The previous use of the building was offices and a private training school and was changed to a building with residential apartments.

The new architectural study foresees that the building, after renovation and utilization of the additional 150 structural sqm, will be converted into 26 apartments.

Ground floor: 6 apartments with floors and semi-subterranean spaces with planting

1st, 2nd & 3rd floor: 6 apartments on each floor

4th floor: 2 apartments with jacuzzi on the terrace of each apartment

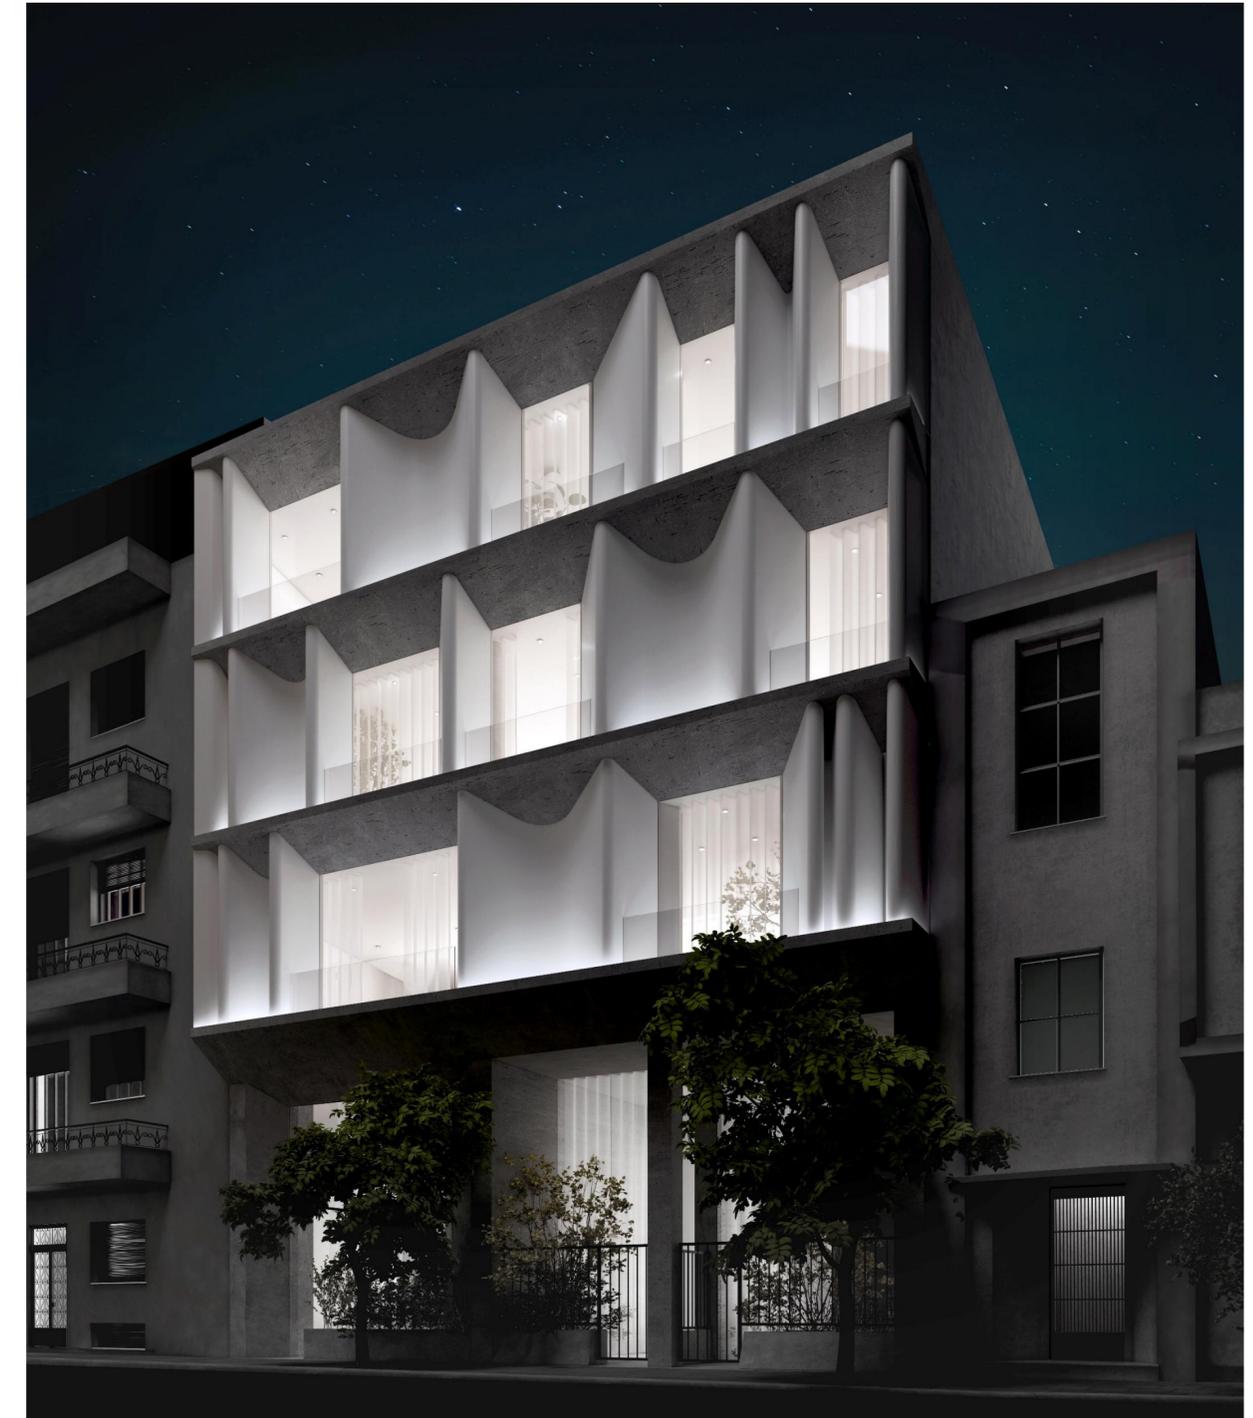

The new facade of the building will have the form of an ancient mantle or chiton and will enclose vertically every floor of the building.

This facade gives plasticity and depth and contributes to the symbolic connection of the building with the city of Athens through the contemporary expression of an element of classical antiquity.

The building will be upgraded in terms of energy through bioclimatic design, thermal insulation, selection of suitable electromechanical systems of high technologies, the use of renewable energy technologies and the application of automatic control devices for the operation of the of electromechanical installations, to limit unnecessary their use.

The building is under the management operation of the Hospitality Company Vision-Hosts of Superior Living.

BRIEF HISTORY OF FINDERS AND WHAT IS THE VISION & THE MISSION

Established in Greece in 2014, Finders has been at the forefront of the country's real estate market, with three branches located in Israel, Athens, and Crete. As one of the pioneers in the industry, Finders has successfully managed five private equity funds, investing in high-quality properties with a focus on commercial and residential buildings, tourist destinations, and accommodation.

The company's core expertise lies in acquiring, redeveloping, and remarketing investment properties, primarily in Athens since its inception. However, as of 2022, Finders has expanded its scope by co-investing in the reconstruction of targeted buildings within its portfolio to convert them into service apartment hotels. With extensive experience in managing thousands of square meters of property in Athens and Crete, as well as a deep understanding of the diverse range of properties available, Finders is confident in its ability to deliver an exceptional visitor experience while serving as a reliable

resource for prospective real estate investors in Greece. Finders has established a network of partnerships with various leading entities in Greece, including architects, real estate agents, appraisers, insurance agents, contractors, and others. These partnerships enable the company to offer a comprehensive and accessible professional service package. As a result of its excellent reputation, strong track record, and field performance, Finders has built strong trust ties with local players in the industry, allowing it to access a vast market of investment opportunities. The company receives advance information on properties, including those soon to be auctioned by local banks in Greece. Finders also has established strong relationships with financing bodies, central banks, and government entities operating in the Greek real estate market. Additionally, the company manages 12 Greek companies (S.A.) that oversee complex projects and properties across various regions under its leadership.
