ABOUT THE AREA

The apartment is conveniently situated near Omonia Square and the National Archaeological Museum.

Omonia has served as a pivotal hub in the city's layout since the initial plans for modern Greece were drawn up in the 19th century.

The redesigned square, revealed in May 2020, features a stunning fountain with 188 jets and 177 underwater lights, all crafted from eco-friendly materials and innovative cool pavement technologies.

The square forms one corner of the triangle that constitutes the city center, connecting Athinas, Stadiou, Panepistimiou, 3is Septemvriou, and Agiou Konstantinou Streets.

Interestingly, city planners once envisioned the royal palace being built on this prime location.

The name Omonia, meaning harmony in Greek, symbolizes the informal political truce established here in 1862 by leaders of opposing political factions following the removal of King Otto.

ABOUT FINDERS & LEADERSHIP

Finders is a real estate investment and asset management platform specializing in the identification, acquisition, development, and strategic repositioning of high-potential properties across Greece.

Founded in 2014, the firm operates at the intersection of local market intelligence and international investment standards, providing global investors with direct access to opportunities within one of Europe's most dynamic real estate markets.

With offices in Israel, Athens, and Crete, Finders has built a vertically integrated platform capable of sourcing, structuring, developing, and managing real estate investments from concept to exit.

Over the past decade, the company has:

- Managed five private equity investment funds
- Completed 211 real estate transactions
- Deployed more than €169.6 million in capital
- Built and managed 122 active assets
- Executed transactions totaling over 51,000 sqm of real estate
- Delivered a 104% realized ROI for investment partners

Finders' strategy focuses on unlocking hidden value in assets often overlooked by traditional investors. By identifying underutilized, mispriced, or strategically located properties, the firm transforms them into high-performing, institutional-grade real estate assets through redevelopment, repositioning, and active asset management.

A key advantage of Finders lies in its proprietary market access. Through deep relationships with local stakeholders, including banks, developers, municipalities, architects, engineers, and legal experts, the company gains early visibility into opportunities that rarely reach the open market.

This access, combined with disciplined investment underwriting and hands-on project execution, allows Finders to consistently deliver high-value opportunities for international investors, family offices, and strategic partners seeking exposure to the Greek real estate market.

Today, Finders serves as a trusted gateway for global capital entering Greece, offering a fully integrated investment platform that spans:

- Opportunity sourcing
- Investment structuring
- Development and repositioning
- Branding and market positioning
- Asset management
- Exit strategy and value realization
